Kendall, Chloe & Aaron

It's a Sunday morning, not so far in the future.
Speculate a fictional story of what your day looks like
when your attention is your own.

What would you spend your time on? What would get your attention? What
tech is there - and what isn't? What have you let go of?

RECEIPT PRINTERS, ALL MY BEST FRIENDS CONNECTED, SHARING LITTLE STORIES AND QUOTES WITH EACH OTHER. AT STORYKEEPING THERE IS A SOURCE POWERED SERVER WHERE WE CAN DEPOSIT AND HARVEST PHOTOS. WE BEGIN BY GROWING TO FIND OUR FAVORITE VIDEOS.

a digital constitution is the set of rules, intentions, and
promises that help you grow the attention sphere you
actually want.

Seeds

What I'm planting this week (small, specific rules
starting now)

I'M WRITING A CLOUDKEEPERS' STORY
ABOUT WHAT A STORYKEEPING LOOKS LIKE AUGMENTED
BY CUBE... HOW PPL INTERACT WITH THE ARCHIVE
AND TEND TO ITS PAST/PRESENT.

Sün

What I'm growing toward - longer-term resolutions and
goals (what would an ideal harvest look like)

AN ARCHIVAL STRUCTURE THAT ALLOWS STORYKEEPERS
AND FUTURE EVENT HOSTS PERUSE, USE, AND
GET INSPIRED: LIKE BIBLIOMANCY BUT FOR TAGS.

Fertilizer

How I'll tend it - who or what keeps me accountable

Clouds

What has held me up in the past? Acknowledge what makes
this difficult
